I couldn't sleep, came down to watch, and Ashley had already been out once (from what others said) gave Carrie a mouse while Ashley was out, and at some point, Ashley went back in. Then she came out a second time, just as Molly flew off see). She stayed out for quite awhile. She's hungry--I bet you'll see her come back out! 😊

Good start, Roni. I think you all need to have a "conference" to determine whether it was Moly or McGee (Becky thinks it's McGee). I also that a better wording than "escapes" the box would be "stepped out of the box" and I would leave off the "appeared to be considering jump I think it is important to be as accurate and concise as possible for people reading the stats tomorrow who weren't here to see it.

That porch is a great addition. She's out there walking all around it. Remember when Max (or Pattison?) stepped out onto that dowel porch just stay hours? People thought he was stuck between the dowels! Finally he simply took a step and returned to the inside of the box. By contrast, Ashley is u on the porch, walking around and back to the perch! She's having a grand ol' time out there.
